

## GPS LOGIN FOR CAREGIVERS

New Login and Logout Instructions for Generations Telephony using GPS

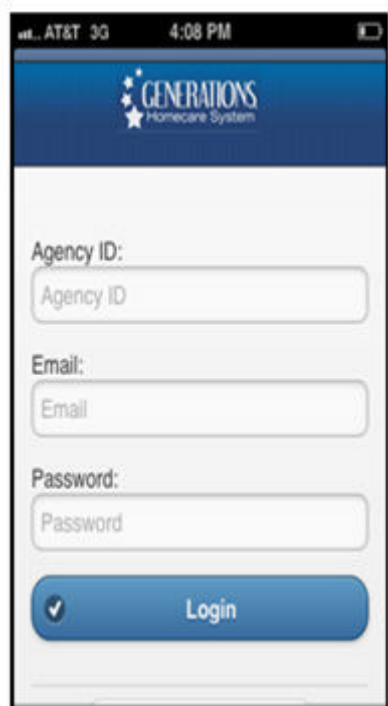

Using this method of logging in and out, you do not need to use the Client phone; instead, you can use a GPS-enabled device.

### Step One

Browse to <https://mobile.idb-sys.com> (or use the Generations App on your device.)

### Step Two

Enter your Agency ID, email address, and password.

A screenshot of a mobile application interface for "GENERATIONS Homecare System". The screen displays three input fields: "Agency ID", "Email", and "Password". Below these fields is a blue "Login" button with a checkmark icon. The status bar at the top shows "AT&T 3G" and "4:08 PM".

Login

### Step Three

Select "Scheduled Visits."

In addition to logging in and out of shifts, you can also:

- Tap "View Available Shifts" to see shifts that do not currently have a Caregiver assigned to them. Call the office if you are interested.
- To review messages for you specifically, tap "Telephony Messages."
- Select "Preferences" to indicate if you wish to opt out of receiving daily schedule reminders.

## Step Four

Select "Login." A green checkmark appears when you successfully log into the shift.

- To learn more about the shift, click Details.
- You can also read required tasks, read the Plan of Care, add Visit Notes, or read Visit Notes.
- **Repeat the same steps to log out.**
